

Can't Turn It Off

Michael Bolton

I can't get you back
But I can't turn away from you
Our love is a fact
Though I've tried to deny it like you wanted me to

I brake on the streets
The people they stop and stare
Was it only a dream? You said you must leave
So why do you follow me everywhere?

I run for my life
Can't break away from your spell
You know it cuts deep inside
Oh, it's like Heaven and Hell

[Chorus]

Can't turn it off, can't turn it off, I said
I can't turn it off; why do you follow me?
Can't turn it off; you turned it on and now I
Can't turn it off

If I'm goin' down, I'm sure to go down in flames
I wait for your sound
I look for you now and I can't hold you to blame

I know you feel guilty, for things we've said and done
To you I'm a moment of fire in your life
But it's different for me, you're the only one

I run for my life
Can't break away from your spell
You know it cuts deep inside
Oh, it's like Heaven and Hell

[Chorus]

The sound of your voice is all I can hear
I still see your face; it's all I can bear
Knowing wherever I run, you'll always be there

[Chorus]
