# Dance with Me

**Michael Bolton**

I walked in
She was standin' there by the bar in a red dress
I couldn't catch my breath
Her eyes like fire reached into my heart
But my soul was the target, I didn't know it yet

I couldn't fight it, I felt my knees go weak
She barely had to speak

I don't really wanna dance with the devil
I admit it, she's a little too hot for me
I don't really wanna walk through the fire
The flames gettin' higher, she's killin' me

And she said, "Dance with me, dance with me
Oh baby, dance with me"
Dance with me, dance with me
Oh baby, dance with me

Dance with me, dance with me
Oh baby, dance with me
Dance with me, dance with me
Oh baby

She took my hand an' led me down the stairs
To the floor where the music was worshiped by strangers
Her body moved in ways I've never seen
How's the face of an angel, so filled with danger

I couldn't fight it, I couldn't take the heat
She barely had to speak

I don't really wanna dance with the devil
I admit it, she's a little too hot for me
I don't really wanna walk through the fire
The flames gettin' higher, she's killin' me

Well, she said, "Dance with me, dance with me
Oh baby, dance with me"
Dance with me, dance with me
Oh baby, dance with me

Dance with me, dance with me
Oh baby, dance with me
Dance with me, dance with me
Oh baby

I don't really wanna fall tonight
But it feels so right, when I know it's so wrong
I don't really wanna walk away
But she's beggin' me to stay and she's much too strong

I don't really wanna dance with the devil
I admit it, she's a little too hot for me
I don't really wanna walk through the fire
The flames gettin' higher, she's killin' me

But she says, "Dance with me, dance with me
Oh baby, dance with me"
Dance with me, dance with me
Oh baby, dance with me

Dance with me, dance with me
Oh baby, dance with me
Dance with me, dance with me
Oh baby

Dance with me, dance with me
Oh baby, dance with me
Dance with me, dance with me
Oh baby, dance with me

Dance with me, dance with me
Oh baby, dance with me
Dance with me, dance with me
Oh baby
