

## New Love

Michael Bolton

There's always somethin' new about you  
Always somethin' takes me by complete surprise  
Every time I see you, I see a part of you  
Oh, I've never seen before

Every day and night, the more we know each other  
Every single time, the more that I discover

[Chorus]

It's a new love, always feels like a new love  
Every touch is feelin' so much  
Like the very first touch  
Like a new love, always feels like a new love  
It's never old whenever we make love  
And I can't get enough of this new love

I'm still excited just talkin' to you  
I'm still inspired just walkin' next to you  
Girl, the way I need you  
I find as time goes by, oh I need you even more

Nothin' feels as good, as good as us together  
Nothin' in the world, no; there ain't nothin' better than this

[Chorus]

We can just go on and on  
'Long as we keep this love  
'Long as we keep this love

[Chorus]
