

# She Did the Same Thing

Michael Bolton

I see you finally found a set of rules  
That came inside her game, boy  
You were so young and very proud  
It's hard believin' you're the same, boy

Did she take you so deep into the night  
And promise you a piece of her heart  
Make it feel so good, feel so right  
Then turn around, and tear you apart

I know, she did the same thing  
I know, she did the same thing  
I know, she did the same thing to me  
Oh yeah

She plays upon your dreams and fantasies  
As if she's come to stay there  
But in your life, you never dreamed  
You'd find the one who'd know the way there

She'll take you so deep into the night  
And promise you'll be so satisfied  
Like a fool you believe all her lies  
Words you'll remember till the end of your life

I know, she did the same thing  
I know, she did the same thing  
I know, know, know, she did the same thing to me, yeah  
Oh yeah

I know, she did the same thing  
I know, she did the same thing  
I know, she did the same thing  
Same thing to me, she did the same thing

The same thing to me, she did the same thing  
She did the same thing to me, she did the same thing  
The same thing to me, she did the same thing  
I know, I know, I know, I know, she did the same thing  
Same thing, same thing

The same thing to me, she did the same thing  
The same thing to me, she did the same thing  
The same thing to me, she did the same thing
