

To Feel Again

Michael Bolton

I know I'm old 'til the moment when we dance
I finally realize I'm not so strong
Until my heart have had enough
So I close the door round up
But baby you prove me wrong

Now I remember what it's like to hurt so deep inside
God I never want to know 'til you brought me back to life
Been forever since I love somebody till I cry because of you
Because of you
I can feel again
I can feel again

My heart was going through the motion of beating
But I was faking everything breath I take
You taught me with the single kiss
Simple truth I almost miss
What good to heart that can't break

Now I remember what it's like to hurt so deep inside
God I never want to know 'til you brought me back to life
Been forever since I love somebody till I cry because of you
Because of you
I can feel again
Feel my life begin
Put an end to all this emptiness and let you in
Took me all enough and now that I know
Never got this feeling
Oh baby

Now I remember what it's like to hurt so deep inside
God I never want to know 'til you brought me back to life
Been forever since I love somebody till I cry because of you
Cause of you
Baby every way you touch me makes my senses speak
Now I dream in eleven colors
Since you woke me from my sleep
More you give, the more I wonder
Where the hell I've been

Because of you
Because of you
I can feel again
I can feel again
I can feel
