

# Whenever I Remember Loving You

Michael Bolton

When the rain is fallin' and I'm overcome  
With the doubts and demons of a love undone  
No voice need tell me that you were the one

Oh I'll remember all my life a love that set me free  
Whatever comes of you and I, I will still believe  
That once upon a time a dream came true  
Whenever I remember loving you, oh yeah

Not a single moment, not a single kiss  
Would I have traded, would I have missed  
No other could ever move me like this

Oh I'll remember all my life a love that set me free  
Whatever comes of you and I, I will still believe  
That once upon a time a dream came true  
Whenever I remember loving you, oh yeah  
I remember loving you

It's not that I don't feel the pain as deep as pain can be  
But I will not be denied the light, your love has brought to me  
What you've given me will last forever, I refuse to lose the tr  
easure  
Of you inside my heart eternally, yeah

Oh I'll remember all my life a love that set me free  
Whatever comes of you and I, oh I will still believe  
That once upon a time a dream came true  
Whenever I remember loving you  
I'll always feel the love we once knew  
'Cause as long as I remember loving you, oh yeah

I will remember loving you  
I'll remember all my life  
I will remember  
Not a single moment, not a single kiss  
I'll remember all my life  
Let them miss you

I'll remember all my life  
I'll remember all my life  
I'll remember all my life  
...
