You Mean More to Me

Michael Bolton

If you need me, know I'll soon be with you
Just call me, I'll give you all the love
I can give you
Didn't you see the look on my face today
You know I'll always be your slave

You mean more to me
Than I ever thought anyone would
You mean more to me
Than I ever thought anyone could
And when you look into my eyes
You know I'll love you all my life
Gonna love you all my life

My love for you is filling up my days
You know you shine on me in oh, so many ways
I guess I'm only trying to say
My heart is yours and yours to stay

You mean more to me
Than I ever thought anyone would
You mean more to me
Than I ever thought anyone could
And when you look into my eyes
You know I'll love you all my life
Gonna love you all my life
