

# You're All That I Need

Michael Bolton

I've been thinking about the night  
We held each other so close  
Had the words locked up inside  
We finally let them go

And how we promised together  
Forever that we'd never fall  
Oh, with a passion that felt so right  
Deep in our restless hearts

Nothing breaks the ties  
If only love survives  
You put your faith in me  
Now I believe

You're all that I need  
In this crazy world  
You're my peace of mind  
Just hold on to me  
We can make it, girl  
Through the troubled times  
The shelter in my life  
The air that I can breathe  
You're all that I need

Through the years you've loved one man  
And always let me know  
Found the strength to understand  
It's been no easy road

You've never given up  
Can't live without your love  
I'll put my heart on the line  
Until you believe

You're all that I need  
In this crazy world  
You're my peace of mind  
Just hold onto me  
We can make it, girl  
Through the troubled times  
We'll run with a dream  
Run forever, girl  
Till we reach the other side  
You're all that I need

I can face the fire  
When you stand beside me  
You keep my heart inspired  
The way you believe

You're all that I need  
In this crazy world  
You're my peace of mind  
Just hold onto me  
We can make it, girl  
Through the troubled times

We'll run with a dream  
Run forever, girl  
Till we reach the other side  
You're all that I need  
You're all that I need
