

## I Got It Easy

Michael Bublé

Never been in trouble and never got hurt  
Never got to struggle and never had to work  
Hard for anything before, believe me  
Lord, I've got it easy

I feel guilty a little, I've been giving so much  
People are dying in the dark while I'm lying in the sun  
And I sleep like a baby every night, it seems  
I'm having the sweetest dreams.  
I can say all that it seems, I got it easy

Now I'm not trying to brag about it  
Just wanna say I appreciate it completely  
And when I'm acting a fool you'll never cruel to me  
I've got it easy, yeah yeah oh yeah

Probably isn't much fun to be alone,  
Wouldn't know, 'cause I've got you here, keeping me afloat  
When I'm lost you set me straight, sometimes I need it  
You raise me up, babe, I got it easy.

Some people drown in here and I'm walking as only needed  
I don't mind what it been on this cold rainy evening  
I hover in bed, got a beautiful woman beneath me  
Every night I got it easy yeah oh yeah, I got it easy

Girl, this wild open to me  
But it's you that completes me  
Lord, I got it easy
