

Stardust

Michael Bublé

And now the purple dusk of twilight time
Steals across the meadows of my heart
High up in the sky the little stars climb
Always reminding me that we're apart

You wandered down the lane and far away
Leaving me a song that would not die
Love is now the stardust of yesterday
The music of the years gone by

Sometimes I wonder why I spend
The lonely nights dreaming of a song
The melody haunts my reverie
And I am once again with you

When our love was new
And each kiss an inspiration
But that was long ago
And now my consolation
Is in the stardust of a song

And beside a garden wall
When stars are bright
You were in my arms
Nightingale tells it's fairy tale
Of paradise where roses grew

Though I dream in vain
In my heart it always will remain
My stardust melody
The memory of love's refrain

When our love was new
And each kiss an inspiration
Oh, but that was long ago
And now my consolation
Is in the stardust of a song

Beside a garden wall
When stars are bright
You were in my arms
The nightingale tell it's fairy tale
Of paradise where roses grew

Though I dream in vain
In my heart it will remain
My stardust melody
The memory of love's refrain
