

# When You're Smiling

Michael Bublé

When you're smiling  
When you're smiling  
The whole world smiles with you

And when you're laughing  
When you're laughing  
The sun comes shining through

When you're crying  
You bring on the rain  
So, stop you're sighing  
Won't you be happy again?

When you're smiling  
Keep on smiling  
And the whole world smiles with you
