

Chorus Of Faith

Michael Card

Sing it with your life, Sing it with your hear
Make melody with the words of your mouth
But mind that you listen, tell it to others
Hear the chorus of faith
Live the chorus of faith

The first note of the song split the darkness
And was sung by the planets and stars
And their light spoke "hallelujah"
And the words of the chorus
Were sung by angels before us
Now come join in the tune

Then in time Jesus came to be for us
And His coming made our life a song
And his Word is the chorus
Is the Light that is burning
Is the reason we sing

Singing this song's what life is about
And if you refuse the stones will cry out
We do not sing that we might be more blessed
He loves us with passion, without regret
He cannot love more and will not love less
