

# I Dream Of You, You Dream Of Me

Michael Crawford

Rush to me, don't run, we both feel the same  
So long together, so long to live and love  
First we met, we thought it was a game  
So much help from those down here and from the one above

I dream of you, you dream of me  
As our hearts so heavy and full  
We both hold the key to love, love is to love you.

Love me so, love you more  
I am happy to walk and hold your hand  
Forget our past, we want it to be two, forget about the other  
four  
Together you and I, together so very planned

Dream of me, dream for a long time  
I will do the same, dream will never end  
There is no mountain high enough to climb  
Your feelings so visible, those feelings you transcend

Dream of me, you are the one I really want  
Last night, the two of us will never forget  
Our strong love we must not taunt  
If I was in gambler, to remain together, I would surely bet

I dream of you, you dream of me  
As our hearts so heavy and full  
We both hold the key to love, love is to love you.

I dream of you, you dream of me  
As our hearts so heavy and full  
We both hold the key to love, love is to love you.
