Look at me, a woman, calm and in control No silly girl who's head's always turning Nobody would guess that, deep inside my soul A brand new fla-ame is burning

Only you... have the power to move me...

And together we'd make the whole world move in sympathy
But I couldn't see before-ore

And only you-ou... have the power to move me...

Take me, hold me, mould me, change me and impro-ove me
It's not funny any more-ore - any more-ore

There was I, wondering why
Every day disappeared into the distance
Now with you, the light is shining through
You gave me life, not just existance

Only you-ou... have the power to move me... And together we'd make the whole world move in sympathy You have the power to move me

All the nights I've wasted, dreaming of the time When I'd discovered the one to guide me Searching the horizon, didn't realise That all the time she was beside me

Only you-ou... have the power to move me...

And together we'd make the whole world move in sympathy
Hope and pray that I'm in ti-ime..., I'm in ti-ime...

Only he can stand and wait that long
Stand by me while I was going wrong
What if she couldn't wait
Have I left it too late

Only you-ou... have the power to move me...

And together we'll make the whole world move in sympathy Brighten up the darkest sky-y
Brighten up the darkest sky-y-y
If only you-ou... use the power to move me
Take me, hold me, mould me, change me and impro-ove me
Only you have the power to mo-o-ove me
Only you-ou...
