

# Love Me

Michael Cretu

Love me and do not ever leave me  
You're the only one  
You're not just for fun  
Love me, don't believe them when they say  
I don't really care  
That just isn't fair

'Cause babe, I believe you so  
I will always be true to you  
Never mind how I sometimes act  
My feelings are the same

Love me, need me  
That's all I want from you  
Love me, believe me  
And always be true  
Love me, don't leave me  
Without you  
My life would be blue

Love me and don't ever doubt it  
At the very start  
You were in my heart  
Show me the way into your feelings  
I'll do ev'rythin'  
I'll give you a ring

Whatever you want from me  
If you love me or will agree  
Be my queen and I'll be your king  
Wouldn't that be exciting?

Love me, need me  
That's all I want from you  
Love me, believe me  
And always be true  
Love me, don't leave me  
Without you  
My life would be blue

Love me, need me  
That's all I want from you  
Love me, believe me  
And always be true  
Love me, don't leave me  
Without you  
My life would be blue

Love me, need me  
That's all I want from you  
Love me, believe me  
And always be true  
Love me, don't leave me  
Without you  
My life would be blue
