Your Favourite Toy

Michael Cretu

Only a game we used to play Little tin soldiers after school You had to win and I would say "Now that I'm dead you've lost your fool" I can hear you laughing Wasn't I your favourite toy? Only a life you threw away Maybe you always played that game Did you believe your luck would stay? Didn't you stand too near the flame? I can hear you laughing I was just your favourite toy I can hear you laughing Wasn't I your favourite toy? Only a feeling since you've gone I'm not alone quite like before If it's the game we played so long Don't wanna lose it anymore I can hear you laughing I am still your favourite toy
