I Got Love For You

Michael Franti & Spearhead

Another morning has come and the sun is high But I know that today is the day that I might cry Because I know you're going And I know you're leaving To somewhere you hope to find the peace of mind you're seeking In the back of a greyhound bus, it'll take you far In the back of a greyhound bus you can be who you are And I say La-la-la La-la-la La-la-la La La I got love for you I got love for you So I'll be waiting my dear u-huh Waiting right here u-huh Waiting my dear u-huh Waiting right here u-huh I remember the time back when we was home In and out up and down in this life what a crazy road It's been a long time that I should said what I tell now That I got faith in you And I believe in you In the dark of the night in the hotel when you're alone In the middle of the city where nobody cares to know On the top of the town in the glimmer of the shining lights You just shine on now You just shine on now And I say La-la-la La-la-la La-la-la La La I got love for you I got love for you So I'll be waiting my dear u-huh Waiting right here u-huh Waiting right here u-huh And I've got love for you - love for you - love for you And I know that you can't say for sure when you're coming home But I got faith in you And I believe in you And I say La-la-la La-la-la La-la-la La La I got love for you I got love for you Another evening's come and the moon is high But I know that tonight is the night that I might cry Because I know you're going And I know you're leaving To somewhere you hope to find the peace of mind you're seeking In the back of a greyhound bus, it'll take you far In the back of a greyhound bus you can be who you are
