

# One Step Closer To You

Michael Franti & Spearhead

I've been down for far too long  
Till my faith was nearly gone  
I never knew somebody just like you  
Could be a friend I could call my own

Till I let go of a broken heart  
I let go to an open heart  
I let go of my broken dreams  
I let go to the mystery  
And I believe in the miracles  
I believe in the spiritual  
I believe in the one above  
I believe in the one I love

And take one step closer to you  
I just take one step closer to you  
Even when I've fallen down  
My heart says follow through  
I take one step closer to you

I never meant to hurt you, no  
And you never meant to hurt me too  
But it seems like you always do  
And even though I'm scared sometimes  
If ever see you fallen down  
I will be the one that's there for you

So I let go of a broken heart  
I let go to an open heart  
I let go of my broken dreams  
I let go to the mystery  
And I believe in the miracles  
I believe in the spiritual  
I believe in the one above  
I believe in the one I love

And take one step closer to you  
I just take one step closer to you  
Even when I've fallen down  
My heart says follow through  
I take one step closer to you

I just take one step closer to you  
I just take one step closer to you

I keep on walking to you, I'm walking  
I keep on walking to you, I'm walking  
I keep on walking to you, I'm walking  
And I'm never going to stop

Even when I've fallen down  
My heart says follow through  
I'll take one step closer  
I'll take two steps closer

Just take one step closer to you  
I just take one step closer to you
