

Still Standing

Michael Franti & Spearhead

There was a time just the other day
When I was on the ground looking up saying
Please God listen to the words I say
Show me a sign, I wanna change my way
No more, no waiting on life to begin
I'm gonna start this minute all over again
Next train coming my way
I'm gonna jump on it and leave like yesterday
Leave like yesterday
Leave like yesterday
Leave like yesterday

It's been a long long road this way
But I'm still standing today
And I don't care what anybody say
Cause I'm still standing, I'm still standing today

Standing, I'm still standing
Standing, I'm still standing
Standing, I'm still standing
Still standing today
Standing, I'm still standing
Standing, I'm still standing
Standing, I'm still standing
Still standing today

Eee-yo-oh! Eee-yo-oh!
Yo-oh-o-oh, Yo-oh-o-oh!

There was a time just the other day
When I was on my feet still looking up saying
Hey God I think I might have found my way
I see a sign saying walk this way
No more, no waiting on life to begin
I'm gonna start this minute all over again
Next train coming my way
I'm gonna jump on it and leave like yesterday
Leave like yesterday
Leave like yesterday
Leave like yesterday

It's been a long long road this way
But I'm still standing today
And I don't care what anybody say
Cause I'm still standing, I'm still standing today

Standing, I'm still standing
Standing, I'm still standing
Standing, I'm still standing
Still standing today
Standing, I'm still standing
Standing, I'm still standing
Standing, I'm still standing
Still standing today

Next train coming my way
I'm gonna jump on it and leave like yesterday

Leave like yesterday

It's been a long long road this way
But I'm still standing today
And I don't care what anybody say
Cause I'm still standing, I'm still standing today

Standing, I'm still standing
Standing, I'm still standing
Standing, I'm still standing
Still standing today
Standing, I'm still standing
Standing, I'm still standing
Standing, I'm still standing
Still standing today
