

# We Don't Stop

Michael Franti & Spearhead

They gotta war for oil, a war for gold  
A war for money and a war for souls  
A war on terror, a war on drugs  
A war on kindness, a war on hugs  
A war on birds and a war on bees  
They gotta war on hippies tryin' to save the trees  
A war with jets and a war with missiles  
A war with high-seated, government officials  
Wall street war, on high finance  
A war on people who just love to dance  
A war on music a war on speech  
A war on teachers and things they teach  
A war for the last 500 years  
War's just messin' up the atmosphere (true)  
A war on muslims, a war on jews  
a war on christians and hindus  
a whole lotta people sayin' kill them all  
They gotta war on Mumia Abu Jamal  
The war on pot, is a war that's failed  
A war that's fillin' up the nation's jails  
World war 1, 2, 3, and 4 (uh huh)  
Chemical weapons, biological war  
Bush war 1 and bush war 2  
They gotta war for me they gotta war for you

We can't stop it when the beat just drops  
(And we don't stop)  
We can't stop it with the rebel rock  
(And we don't stop)  
We can't stop until we hit those heights  
(And we don't stop)  
We can't stop because we love this life

Dance to the new day  
Sing to the new day,  
rhyme to the new day  
Transform hell into heaven god lives through,  
grab hold of today  
Yesterday is over, tomorrow may be too late  
Everything is one but the one is off balance  
Music made for the dollar like soul and talent  
Really ain't it all about a feeling you was havin'  
As a child runnin' wild before the mind programmin'  
set in Threatenin' your establishment  
get in this energy,  
lay back and sit  
The next men wreckin',  
to the master's lips  
head spin grethren,  
get to askin' if  
Where, when, mr. president,  
"what do you know?"  
it's evident settin' in slow,  
"how does it go?"  
an unprecedented event is about to unfold  
The devil can't stop,  
won't stop blockin' the globe

Fall in a cell here  
Freedom come knock at the door  
They try lockin'it though,  
but we about to explode  
We got the firefly, tiger eye apocalypse flow  
So deep in the bottom of your bottomless soul  
Send mind darts flyn' out, whiout a pistol  
Redesign lost minds got outta the cold  
Bring order to a world that is outta control  
"truth" you say, I say "how do I know?"

We can't stop it when the beat just drops  
(And we don't stop)  
We can't stop it with the rebel rock  
(And we don't stop)  
We can't stop until we hit those heights  
(And we don't stop)  
We can't stop because we love this life

I wanna rock with punks because I love punk rock  
I wanna rock with heads because I love hip hop  
I wanna rock my beats all around the block  
If I was in baghdad then I would rock iraq  
I wanna rock with punks because I love punk rock  
I wanna rock with heads because I love hip hop  
I wanna rock my beats all around the block  
There is just one love so the planet we rock

New world days and new world nights  
New world wrongs and new world rights  
Putting new world funds in the new world banks  
With the new world guns on the new world tanks  
New world devils and new world gods  
New world jails see the new world's hard  
New world names sing new world songs  
New world planes are the new world bombs  
new world's flyin, the new world's dying  
The new world's crying and the new world's trying  
New world sons and new world daughters  
They're already selling us new world water  
New world beats for the new world to bang  
new world streets for the new world to hang  
the new world president, new world drugs  
New world resident, new world thugs  
New world players for the new world sports  
New world trials for new world courts  
new world lawyers and new world laws  
New world prisons and and new world bars  
New world fight the new world's fists  
The new world lighting up the new world spliffs  
New world smoke in the new world lungs  
New world's choking, the new world's done

We can't stop it when the beat just drops  
(And we don't stop)  
We can't stop it with the rebel rock  
(And we don't stop)  
We can't stop until we hit those heights  
(And we don't stop)  
We can't stop because we love this life
