

True Love

Michael Johnson

True love takes a long tome to make
Losing it causes a whole lot of heartache
True love ain't easy to find.
Sometimes you don't know you've got it
Till you leave it behind
There's a feeling I get when I think about you
Realize what we had was true
Could've saved it, but I was too blind
And I know I might search a lifetime through
And never find another love like you
It was true love, and that's a hard love to find
'Cause I know true love takes a long tome to make
Losing it causes a whole lot of heartache
True love ain't easy to find
Sometimes you don't know you've got it
Till you leave it behind
Well I've known love burning hot, love turning cold
Until I lost it, I didn't know...
True love takes a long tome to make
Losing it causes a whole lot of heartache
True love ain't easy to find
Sometimes you don't know you've got it
Till you leave it behind
Sometimes you don't know you've got it
Till you leave it behind
