True Love

Michael Johnson

True love takes a long tome to make Losing it causes a whole lot of heartache True love ain't easy to find. Sometimes you don't know you've got it Till you leave it behind There's a feeling I get when I think about you Realize what we had was true Could've saved it, but I was too blind And I know I might search a lifetime through And never find another love like you It was true love, and that's a hard love to find 'Cause I know true love takes a long tome to make Losing it causes a whole lot of heartache True love ain't easy to find Sometimes you don't know you've got it Till you leave it behind Well I've known love burning hot, love turning cold Until I lost it, I didn't know... True love takes a long tome to make Losing it causes a whole lot of heartache True love ain't easy to find Sometimes you don't know you've got it Till you leave it behind Sometimes you don't know you've got it Till you leave it behind
