

# Worry Walks Beside Me

Michael Kiwanuka

Worry walks beside me every day  
They say I should run but It's comin my way  
I'll be doin fine if you just leave me behind

Coming all over and under my skin  
Say if I follow I will die like a king  
I'll be doin fine if you just leave me behind

What will it take to believe I can run?  
What will it take? When will I be done?  
I've been trying

I find him standing here all the time  
I find him trying to steal all that's mine  
I'll be doin fine if you just leave me behind

What will it take to believe I can run?  
What will it take? When will I be done?  
I've been trying

What will it take to be free again?  
I wanna leave this behind  
What will it take just to see again?  
All this is making me blind

What will it take to believe I can run?  
What will it take? When will I be done?  
I've been trying

How does it feel to be flying away?  
How does it feel to believe today?  
I've been trying

Worry walks beside me everyday
