

# Angel Eyes

Michael Learns to Rock

She blinded me with her light  
It's such a beautiful sight  
The way she moves like an angel  
She's got me walking on air

Angel eyes  
Rays of hope that hypnotize  
They're a blessing in disguise  
Lightning up my life

We can play  
In our secret hideaway  
We can go there everyday  
Time is on our side

She blinded me with her light  
It's such a beautiful sight  
The way she moves like an angel  
She's got me walking on air

Angel eyes  
There will be no compromise  
Now that I have realized  
What they mean to me, oh yeah

She blinded me with her light  
It's such a beautiful sight  
The way she moves like an angel  
She's got me walking on air

She brought heaven to me  
Just like a symphony  
The way she talks like an angel  
A language out of this world

I'm not a superstitious mind  
Not a spiritual kind  
But she became a revelation to me  
She made me believe

She blinded me with her light  
It's such a beautiful sight  
The way she moves like an angel  
She's got me walking on air

She brought heaven to me  
Just like a symphony  
The way she talks like an angel  
A language out of this world

She's the sun that makes the rainbow  
She's the blue sky when it's cloudy in my mind  
She's the thunder, she's the lightning  
She's the weather that keeps blowing throughout time

She's the sun that makes the rainbow  
She's the blue sky when it's cloudy in my mind

She's the thunder
