

Everyday

Michael Learns to Rock

Slowly but surely you leave
Your mark on me

Silently stealing away
My sanity

`cos I've been watching you right from the start
Standing so near can you hear my heart...
Crying

Chorus
Everyday
I keep on waiting for a chance to
Give away
The love I save to you
Hard as I try
I'm getting closer but I can't get through

Swimming this river of doubt
On my own

Trying to read your mind...
Are you feeling alone

Baby the sun shining light in your eyes
Gives me a feeling I hope never dies
Baby

Chorus
Everyday
I keep on waiting for a chance to
Give it away
The love I save to you
Hard as I try
I'm getting closer but I can't get through

So little baby blue
Give me clue
Tell me you need me too...
It's now or never

You are on my mind
Give me a sign
Show you wanna be together
