Everyday

Michael Learns to Rock

Slowly but surely you leave Your mark on me Silently stealing away My sanity `cos I've been watching you right from the start Standing so near can you hear my heart... Crying Chorus Everyday I keep on waiting for a chance to Give away The love I save to you Hard as I try I'm getting closer but I can't get through Swimming this river of doubt On my own Trying to read your mind ... Are you feeling alone Baby the sun shining light in your eyes Gives me a feeling I hope never dies Baby Chorus Everyday I keep on waiting for a chance to Give it away The love I save to you Hard as I try I'm getting closer but I can't get through So little baby blue Give me clue Tell me you need me too... It's now or never You are on my mind Give me a sign Show you wanna be together
