Family Tree

Michael Learns to Rock

I'm gonna be the owner of the world for a little while
And it feels like I am flying (I am flying)
Everybody's waving in the crowd to get a smile
But they never saw me crying (saw me crying)

Even when we dance close the floor
And everyone's calling out for more
Someone in your heart you feel alone

Hold my hand tonight
And show me what is right
Make my life complete
Below the family tree

Take away my fear
And tell me you'll be there
We'll always be together
I'll always know you care

Everybody's talking right behind my back
And I don't care what people're thinking
But in a little corner of my mind it's getting tough
When the moving lights are twinkling

Even when we dance close the floor
And everyone's calling out for more
Someone in your heart you feel alone
Hold my hand tonight
And show me what is right

Make my life complete below the family tree
Take away my fear
And tell me you'll be there
We'll always stay together
I'll always know you care

When the heavy come falls
I know where I belong
I could never walk away from you(from you)
When the everyday life calls
I'm gonna sing a song
Yeah~

Hold my hand tonight
And show me what is right
Make my life complete
Below the family tree

Take away my fear
And tell me you'll be there
We'll always stay together
I'll always know you care

We'll always be together
I'll always know you care.
