

Final Destination

Michael Learns to Rock

I believe in the world
When I see the beauty in a girl like you
And I believe that all my dreams of yesterday
Are one touch away

Wanna be your final destination (I wanna be your town)
Wanna be the station where you jump off the train
Let's make a story about you and me
This love is meant to be

I believe that life
Is giving back to you what you sacrifice
All the tears I cry disappear with the love I see
Right next to me

Wanna be your final destination (I wanna be your town)
Wanna be the station where you jump off the train
Let's make a story about you and me
This love is meant to be
