

# I Wanna Dance

Michael Learns to Rock

It's late at night they've all gone home  
So finally we're all alone  
The waiter says we're closing very soon

Still the night's so long  
Don't wanna say goodbye to you  
I've got plans for us tonight  
Baby that's right

I wanna dance all night long  
All alone with you girl  
'cos I'm ready for a sweet romance  
All alone with you girl

We share the last glass of wine  
Our hearts are beating in perfect time  
Wondering who will be the first to say

You know it feels alright  
Why don't you hold me tight

I wanna dance all night long  
All alone with you girl  
'cos I'm ready for a sweet romance  
All alone with you girl

I know tomorrow comes a day  
Don't think about what they will say  
Just close your eyes and dream away in my arms
