

# Let's Build A Room

Michael Learns to Rock

Don't let them talk, don't let them tell you stories about the war  
Don't let them in, don't let them steal the gold in your heart  
And if it's hard to do alone, come on and take my hand  
Don't be afraid, together we'll fight  
To keep the cruelty out of our lives

Let's build a room, let's build a room  
Where only lovers inside can breathe the air  
Let's build a room, let's build a room  
Where the only thing is a bed on the floor

Let's build a room, let's build a room  
I'm sure the birds in the trees can tell exactly how  
To build a room, to build a room, a room for love

The summers all over the land, it isn't hard to understand  
What we were doing if it wasn't for the war  
Just take my hand, together we'll fight  
To keep the cruelty out of our lives

Let's build a room, let's build a room  
Where only lovers inside can breathe the air  
Let's build a room, let's build a room  
Where the only thing is a bed on the floor

Let's build a room, let's build a room  
I'm sure the birds in the trees can tell exactly how  
To build a room, to build a room, a room for love  
A room for love

Let's build a room  
Where only lovers can hide

Let's build a room, let's build a room  
Where only lovers inside can breathe the air  
Let's build a room, let's build a room  
Where the only thing is a bed on the floor

Let's build a room, let's build a room  
I'm sure the birds in the trees can tell exactly how  
To build a room, to build a room, a room for love

Let's build a room, let's build a room  
Where only lovers inside can breathe the air  
Let's build a room, let's build a room  
Where the only thing is a bed on the floor

Let's build a room, let's build a room  
I'm sure the birds in the trees can tell exactly how
