

# Lonely Satellite

Michael Learns to Rock

How can you think it's right to treat me like you do  
You're so careless with the truth  
How can we make it back if you can't make amends  
with no time left to pretend

inside there is a river rising.  
inside there is a lover denied  
inside there is a feeling that I can't fight

Lead me right back to the start  
Leave me with the broken heart  
My eyes are closed, but all I see is you, it's you.  
Lead me back into the night  
Another lonely satellite  
I don't know why I always fight with you, with you.

I can barely see the man I used to be  
Now suspicions cover up me.. um hm...

Outside there is another horizon  
Outside there is a flickering light.  
So far away that I must try.

Lead me right back to the start  
Leave me with the broken heart  
My eyes are closed, but all I see is you, it's you.  
Lead me back into the night  
Another lonely satellite  
I don't know why I always fight with you, with you.

Lead me back...

Lead me right back to the start (lead me back.)  
Leave me with the broken heart (broken heart..)  
My eyes are closed, but all I see is you, it's you.  
(baby, it's you)  
Lead me back into the night (lead me back)..  
Another lonely satellite (ooo... satellite)  
I don't know why I always fight with you, with you.  
(with you)

Lead me right back to the start  
Leave me with the broken heart  
My eyes are closed, but all I see is you, it's you.

Lead me right back to the start  
Leave me with the broken heart (broken heart)  
My eyes are closed, but all I see is you, it's you.
