Make Me Feel

Michael Learns to Rock

The sun meets the ocean
in a world of gold
Extending the shadows
speaking in bold

Your face in the clouds
is leaving no doubt
There are still songs to sing
you came to pull my strings

Take my heart and keep it with you
Show me love is someone real
Take my life and make it simple
Touch me now and make me feel

When I hear your whisper in my ears
I know you're the one to catch my falling tears

Take my heart and keep it with you
Show me love is someone real
Take my life and make it simple
Touch me now and make me feel

Uhhh don't ever let it go
Uhhh even when the wind gets cold

Nobody knows just how much you mean to me
Nobody knows and I gotta let it show
