

Walk With Me

Michael Learns to Rock

Was it good did I behave like I should
Was it fine the way we chose to spend our time
Knowing you has been an everlasting thrill
and I love you still

Strong is life and really hard to sacrifice
this world of mine though it has been rough sometimes
Evil words I said when I was really mad
wherein't meant so bad

Walk with me
just turn around and let it be
I have come
to guide you all the way
Walk with me
'cos I have got the key
that finally sets you free

Time reversed they calling from the universe
A world unknown I'll have to travel all alone
Left behind, is an echo of my mind
for anyone to find

Walk with me
just turn around and let it be
I have come
to guide you all the way
Walk with me
'cos I have got the key
that finally sets you free
