

Woodsmoke In The Wind

Michael Martin Murphey

You're out tonight with someone new
You think I'll stay right here and wait for you
This time you're wrong, I'm almost gone
Walking out the door is all I've got left to do

I'm gonna get so lost, I'll find myself again
I'm gonna drift away like woodsmoke in the wind

There's a place I know high up in the snow
Waiting for me like a long lost friend
And there I'll build a fire as I watch the flame go higher
And give this heartache time to mend

I'm gonna get so lost, I'll find myself again
I'm gonna drift away like woodsmoke in the wind
Gonna get so lost, I'll find myself again
I'm gonna drift away like woodsmoke in the wind

As I watch the seasons turn I wonder what I've learned
I wonder if I'll ever love again
Does it always end the same, is love a dying flame
That drifts away like woodsmoke in the wind?

I'm gonna get so lost, I'll find myself again
I'm gonna drift away like woodsmoke in the wind
I'm gonna get so lost, I'll find myself again
I'm gonna drift away like woodsmoke in the wind

Gonna get so lost, I'll find myself again
I'm gonna drift away like woodsmoke in the wind
