

## Any Foolish Thing

Michael McDonald

I'm not used to saying things like that  
'cause all my best intentions fall so flat  
But when it comes down to it  
My love for you knows no limit, darling  
I'll say, I'll do

Any foolish thing to call on your affection  
Any foolish thing to show how much I care  
Any foolish thing that we say might come about  
(any foolish thing that we say might just come true)  
Don't take it lightly, girl  
'cause it could just work out  
(I'd bet it all on you)  
That this love won't be any foolish thing

I know you don't believe in every line you hear  
Forgive me if I'm sounding too sincere  
But I can't take chances you might slip away  
While I wait for the right time  
And place to say

Could turn you away  
Can lead you astray

Or shadow this love I feel  
Anything I say  
Might make you see  
That deep in my heart  
Your love is safe with me
