

House Full Of Love

Michael McDonald

I guess that we could always want for something more
But then how much is enough?
So much for all the things we know we can't afford
I don't need any more stuff, babe

Let everybody else rush around, fight the crowds
Only to ask themselves why
All I need is just some mistletoe, you and I
And baby, I'm satisfied right here in your arms

Baby, we got a house full of love, babe
We got a house full of love
Might not be rich enough, baby, we got love
And that's all we really need
We got a house full of love

So baby, come to me and sit here by the fire
And let the world rush on by
We'll find the magic of a Christmas long ago
Just like the very first time

Let everybody else lose their minds, wait in line
Only to ask themselves why
All I need is just to be with you Christmas Eve
That's all the present that I'll ever need

Baby, we got a house full of love, babe
We got a house full of love
Might not be strong enough, baby, we got love
And that's all we'll ever need
We got a house full of love

We got a house full of love now, baby
All I need is just to be with you Christmas Eve
That's all the present that I'll ever need, no
Baby, we got a house full of love
We got a house full of love

We got a house full of love
We got a house full of love
We got a house full of love
.....
