

## Love Lies

Michael McDonald

What's that lyin' on her pillow  
Folded up so neat  
What once was love is now a letter  
Lying where she used to sleep  
Oh, I thought love was something I could count on  
But it took her to show me that

Love lies-right to your face  
Love lies-just when I had faith  
It would let me down  
I know that love lies-right to the end  
Love lies-i know the word will never mean the same to me

What's this emptiness inside me  
Where her promise used to be  
She said she'd be here to guide me  
I guess now the joke's on me  
Oh, I thought love was something like devotion  
But it took her to show me that

Love lies-right to your face  
Love lies-just when I had faith  
It would let me down  
I know that love lies-right to the end  
Love lies-i know the word will never mean the same to me

Just when you think you know what love is about  
Someone takes your place, and you find that

Love lies-right to your face  
Love lies-just when I had faith  
It would let me down  
I know that love lies-right to the end  
Love lies-i know the word will never mean the same to me
