

Tear It Up

Michael McDonald

I need your touch tonight
Nobody else will do for me
The time is right if love's a game and we're both in it
Playing for real, we're gonna win it
Gonna show them how it's meant to be

We're gonna make it together
We're gonna tear it up, take it to the limit now
We're gonna make it together
We're gonna tear it up, never see the finish

Now tomorrow seems so bright
The future's looking good for us
We have the trust if our faith is true and we don't break it
No one else will ever shake it
Gonna show them how it's meant to be

We're gonna make it together
We're gonna tear it up, take it to the limit now
We're gonna make it together
We're gonna tear it up, never see the finish

We're gonna make it together
We're gonna tear it up, take it to the limit
We're gonna make it together baby
We're gonna tear it up, never see the finish

True love forever shine your light this way
We will stay together
Passion is all it takes to make it real
And it's what we're feeling

We're gonna make it together
We're gonna tear it up, take it to the limit girl
We're gonna make it together
Tear it up, never see the finish

We're gonna make it together
We're gonna tear it up, take it to the limit
Gonna make it together, baby
Tear it up

We're gonna make it girl
We're gonna make it girl
We're gonna tear it up

We're gonna make it together
We're gonna tear it up, take it to the, take it to the limit baby
We're gonna make it together
We're gonna make it baby
