

# Don't Let Me Go

Michael Penn

I want you to keep a piece of me  
In there; right below  
Your majesty  
I may tend to it with flattery  
Or maybe I'll jump start  
Counting on a battery  
What's right, unglue  
What's left, breakthrough  
Brake up, brake down  
Let up, leave town  
Oh fuck, got stuck  
You lose, tough luck  
The odds were in your favor  
The taste was in your savor  
How bitter is that swill?  
And it's dragging me to you  
Don't let me go  
Black hole  
Falling in  
Don't let me go  
If I'm wrong again  
Don't let me go  
Even if it pulls you in  
Don't let me go

If you don't you can say  
You didn't quit  
And I'm likely to be needing it  
So sorry but  
When I let go  
I thought you'd know  
How to follow  
Did you swallow?  
Its gone  
Head rush  
Can't see  
This crush  
Will prove I was unworthy  
And what I did was usury  
I'm sorry for that too
