Out Of It's Misery

Michael Penn

That's the way it goes you're going to have to see it through eventually listen, I propose that everybody show some sort of sympathy 'cause all the highs and lows are really wearing out its elasticity

there's no bouncing back no recovery put it out of its misery

If you take my devotion and figure it as something you're due to accrue it's only emotion winding up the motion we are going through and don't it break your heart to watch its little quiver on the avenue

'til it's crawling back
on its only knee
put it out of its misery
I can hear mercy mercy me
letting this go on and on and on
endlessly

That's the way it goes
everybody knows we're through,
so you see
your I-told-you-sos
weren't any help
and now they're boring me
listen I propose
that we might indulge
a little luxury
but there's no going back
and it falls on me
that it is murder
'cause I know baby, only you
can put me out of my misery
