

Frozen Over

Michael Schulte

Locked the door
Turned off the lights
Cause I don't wanna be the one with his heart broken
I hid away
Kept it all inside
Safe from hurt in my cold isolation
Living half a life
Tell me how the hell did you break me wide open

CHORUS

I was frozen over.
Until you came and broke the ice
I was lost in silence
Until you came and found me
I was frozen over
And it's been harder to love than to hide
Swimming in a bottomless ocean
Until you came and pulled me out

When I was down
You showed me love
Hard to believe that I really deserved it
There was a little voice in my head
Saying give it a chance and thank God I heard it

CHORUS

You were the one that made me open up.
You were the one that made me strong.
You were the one I thought I'd never have.
You were the one that made me strong.

Locked the door
Turned off the lights
Cause I don't wanna be the one with his heart broken

CHORUS 2X
