## Sophie

## **Michael Schulte**

I see you stand against the wall I take your hand, I take your fall And as we lay here on the ground Burning the same, inside and out Sophie, Sophie, my heart's on fire, when I see you. My heart's on fire, when I see you. An empty throne, our king gone. The flame feels cold, the light glows on. Oh my little girl, time will pass And we'll grow strong by looking back. Sophie, Sophie, my heart's on fire, when I see you. My heart's on fire, when I see you.

Sophie, Sophie, my heart's on fire, when I see you. My heart's on fire, when I see you.
