

Kings In Castles

Michael Tolcher

People said it would go so fast
Before you know it you'll be here
Living life innocent just don't last
It get's harder every year

See yourself in a place beyond today
Yeah the future can be scary
Just be wise to the games you play
Don't let your spirit get buried

By then, we'll be making history
We'll be writing fairy tails
We'll be stars in movies
By then, we'll be raising families
Living off of memories
We'll be kings in castles
By then

Having fun was the only rule (It's all about the fun)
Yeah, there was nothing in the way
Being left out or being uncool (Won't catch me)
Was the hardest game to play
People said very soon your games would end
If you grow up like you should
Because in this life you have to fend
For yourself like no one else would

By then, we'll be making history
We'll be writing fairy tails
We'll be stars in movies
By then, we'll be raising families
Living off of memories
We'll be kings in castles
By then

We'll be the heros
Oh, say can you see those bright, shining stars
Can you see those bright shining stars

We'll be making history
We'll be writing fairy tails
We'll be stars in movies
By then, we'll be raising families
Living off of memories
We'll be kings in castles
By then

By then, we'll be making history
We'll be writing fairy tails
We'll be stars in movies
By then, we'll be raising families
Living off of memories
We'll be kings in castles
By then
