Fly to the moon
Well, you could do it if you wanted to
Try flying high
The only limit is the endless sky
So, go on and fly to the moon

Live in the sun
You know your living has just begun
So much ahead
Don't let the night leave you for dead
So, come on, live in the sun

Fly to the moon
And when you find your wings I will celebrate with you
Watch you as you soar
Take the wishes that are yours
And let them fly you to the moon

Dream on a star

You can let it take you near or far

Feet on the ground

Don't let anybody hold you down

So, go on and dream on a star

Fly to the moon
And when you find your wings
I will celebrate with you
Watch you as you soar
Take the wishes that are yours
I know you can fly to the moon
You can do all things
I will celebrate with you
It's hard to let you go
Still, you have to go,
I know

So go on, fly to the moon
And as you spread your wings
I will celebrate with you
Hope we taught you good
Hope you know that if I could
I would fly away with you

Gotta take it all the way When you follow dreams Follow far Flying high and away You're flying all the way To the moon
