

## Dead Beat

Michale Graves

Hero's high, walk on by  
Make the moment mine  
Internal memories inside your mind  
Face of fear is slit and stitched, go ahead and try

I've always hated every one  
Makes no difference anymore  
But you got away, said he's tired anyway

Makes no difference anymore  
Only time fade away  
Where's your brother, dead beat, dead

Deals and lies, like times you hide  
What I brought is mine  
Internal memories inside your mind  
If you dare stay and fight, go ahead and try

I've always hated every one  
Makes no difference anymore  
But you got away, said he's tired anyway

Makes no difference anymore  
Only time fade away  
Where's your brother, dead beat, dead

I, I hate you

Dead beat, dead beat, dead

I, I hate you
