

Crazy Ride

Michelle Branch

Goodnight big moon, sweet dreams, baby
If I could have one wish tonight
It would be that you'll always keep
Keep the starlight in your eyes

So one day you'll grow up, one day you'll walk out
In this big world on your own
And there'll be days when your heart will break and
You swear that all your strength is gone

And then you'll find a way to carry on

Heaven knows that it's a crazy ride
It's never perfect all the time
It'll pull you down and send you flying
So baby, hold on tight on this crazy ride

So don't be scared when you're in the darkness
The sun is swallowed by the ground
You'll think it's gone but it's hanging on
It's just on the other side of town

Even when it's lost it can be found

Heaven knows that it's a crazy ride
It's never perfect all the time
It'll pull you down and send you flying
So baby, hold on tight on this crazy ride

Heaven knows that it's a crazy ride
It's never perfect all the time
You know it's just a crazy ride
It's never perfect all the time
It'll pull you down and send you flying
So baby, hold on tight on this crazy ride

Goodnight, big moon, sweet dreams, baby
