

Heartbreak Now

Michelle Branch

You're my one obsession
You're my daydream in the afternoon
It's my great depression
I love knowing that I can't have you

The things I should be running from
I never seem to get enough

Ready for the heartbreak now
Got me spinning out of control
Haunted by the way that I want you
Cause you can't help you love
I'm lonely all over again
I'm lonely all over again
No you can't help who you love

Opposite attraction
Pull me like a magnet into you
Cause a chain reaction
Hold me down so I can't make a move

The things I should be running from
I never seem to get enough

Ready for the heartbreak now
Got me spinning out of control
Haunted by the way that I want you
But you can't help you love
I'm lonely all over again
I'm lonely all over again
No you can't help who you love

Only you know how to set me off
I never seem to get enough

Ready for the heartbreak now
Got me spinning out of control
Haunted by the way that I want you
Cause you can't help you love
I'm lonely all over again
I'm lonely all over again
No you can't help who you love
Woah, no you can't help who you love
No you can't help who you love
