

You're Good

Michelle Branch

Nobody know me better
You got a way, yeah you know you do
Say it'll be forever
And I'm gonna believe 'cause I know it's true
Everybody tells me that you're not in love
They don't understand you like I do
Will never change their minds because they're not in love
Not in love
Never no they're not in love with you

I know the way you feel in the dark
Move in the dark,
You're like a song, I know you by heart
Every part of your soul
And I know you're good

Everybody tells me that you're not enough
They don't understand you
Will never change their minds because they're not in love
Not in love
Never no they're not in love with you

I know the way you feel in the dark
Move in the dark,
You're like a song, I know you by heart
Every part of your soul
And I know you're good

I know the way you feel in the dark
Move in the dark,
You're like a song, I know you by heart
Every part of your soul
And I know you're good
