

I'm There Too

Michelle Featherstone

I see myself in you
In everything you do
And when you're all alone at night
You know I am by your side
'Cause I'm there too

I see me in your eyes
And I'm tears you cry
And when you fall apart
And I'm dying from a broken heart
I'm there too

I see your footsteps in the sand
As you journey on across this land
But if you should fall on your way
Then I will carry you that day
'Cause I'm there
I'm there too
Yeah I'm there too

I see your face in mine
And I know there'll come a time
When you will take my hand
And I will understand
That you're there too
When you will take my hand
And I will understand
That you're there
You're there too
