## I Will Be Fine

## **Michelle Featherstone**

Never did I wonder why I felt this way inside Never did I wonder why your arms weren't open wide Never did I wonder if the truth was ever told And after all the wounds why you became so cold Never did I think that you would make me feel so sad Never did I think that it would ever hurt this bad Never did I think that you could hurt me like you do And after all the lies how I believed in you I will be fine And I don't you need you boy I will be fine And I don't need anything Cuz I've got all of the things that I need And I'm fine Never did I worry that I'd have to say goodbye Never did I worry that someday you'd make me cry Never did I worry that you'd even not come home And after all of this that I would be alone I will be fine And I don't need you boy I will be fine And I don't need anything Cuz I've got all of the things that I need And I'm fine fine fine fine I'll bet you thought that I'd be devasted and isolated Perhaps you thought that I'd be sad and crying Begging and whining but I'll be fine I'll be fine I will be fine I will be fine and I will be fine And I don't need you boy I will be fine And I don't need anything Cuz I've got all of the things that I need And I'm fine Yeah I'm fine

I will be fine And I don't need you boy I will be fine And I don't need anything Cuz I've got all of the things that I need And I'm fine fine fine Oh I'm fine
